KNOW- HOW & QUALITY

From our inception as a quality control and development company to the design and manufacturing specialist we have become today, the question of how can we create striking, durable and affordable designs remains at the core of everything we do.

The Donata difference is in our passion for design and our pursuit for perfection. With ever-changing fashions and technical advancements, our mission is to provide clients with better quality furniture than they ever thought possible. In reality, that goal will never be truly complete – but that's precisely what drives us.

International inspiration lies at the heart of Donata, and we incorporate distinctive style and high-end materials from across the world into our pieces. This cosmopolitan approach is further enhanced by our multi-cultural team, where we have cultivated an environment that not only appreciates and respects diversity but encourages it throughout the company.

And by sourcing premium-grade materials from all corners of the globe, our dynamic designers, technicians and craftsmen work closely together to create striking and transitional hand-finished pieces, with our vision etched into every single item.
